2020 Special Elections Report

June 17, 2020 SPECIAL REPORT – concerning the primary threats to the 2020 elections this November and what must be done about them, state-by-state.

ENEMY IN PLAIN VIEW

- [Barack Obama's Organizing for Action](#) – a Marxist Revolutionary community organizing op draining money away from the DNC into the riots, looting and burning of our cities to force Obama's radical "hope and change" upon the people.
- [Black Lives Matter](#) – An international democratic party money laundering op taking in billions from around the world and dumping all of it into Democrat candidates across the country, most of them white.
- [Act Blue](#) – a massive democrat party international money laundering operation funneling billions from all over the globe through hundreds of leftist activist groups, poured into democrat candidates and 510 initiatives designed to undermine U.S. security and sovereignty.
- [ANTIFA](#) – Obama's "civilian army" commanded by Democrat operatives working with Barack Obama, just three blocks from the White House, used to turn "peaceful protests" into "terrorism" while keeping BLM, Act Blue and others hidden in plain sight.
- [More than 200 George Soros 501s and 527 groups](#) - pouring billions into REGIME CHANGE and the final fall of the United States.

As TNALC has continued monitoring events in the USA that will affect the November elections, we have identified the TOP 5 threats to a legitimate election outcome in 2020. In doing so, we present those threats, the intent and purpose behind each threat and what if anything, we can do about it.

TOP 5 THREATS 2020

1. COVID19 PANDEMIC
2. RIOTS AND OCCUPATIONS
3. MAIL-IN ELECTION
4. NATIONAL POPULAR VOTE
5. COURTS V. ABSOLUTE RIGHTS

COVID19 PANDEMIC

This event is much better titled either PLANDEMIC 2020 or COVERT19. COVID19 is a real respiratory virus originated in a Wuhan China bio-lab that does work on "weaponizing" bio threats to human health. It is very similar to the SARS virus (Severe Acute Respiratory Syndrome) first identified by the USA in February 2003. As of the issuance of this report, the USA stats are as follows:

- 0.67% of the US population has been labeled a COVID case. However, pretty much every respiratory case has been labeled COVID19 for a few reasons, even if the case was entirely unrelated to COVID19.
- 88.35% of COVID labeled resolved cases have resulted in recovery.
- 11.65% of resolved cases has resulted in death.
- 53.7% of cases remain unresolved and under care.
- Most of this country still remains on some level of lockdown after 4 months.

Prior to COVID19 hitting our shores, the Trump Administration had successfully steered the nation to the best economy in over 50 years, with the lowest unemployment in U.S. history, all sectors, all races, creeds, and colors. Trump's re-election was nearly a sure thing...

But within a few hours of news that a Wuhan China virus was headed our way, that work was totally destroyed. Within a few weeks of unwarranted COVID shut down of our \$21T economy, our 2020 GDP was reduced by more than 50% and unemployment skyrocketed from 3% to a reported 14%, with the true unemployment rate actually above 50%.

THE BEGINNING OF A PERFECT STORM

Within minutes, over 90% of Americans accepted the "order" from their governors and mayors to commit themselves to voluntary home arrest. No working, no shopping, no visiting, no eating out, no going to open air public areas, no earning, no nothing. 90% of Americans complied with "orders" (not to be confused with laws) in minutes and four months later, most are still on voluntary lockdown, afraid to leave their homes.

All of this, the result of a virus affecting less than 1% of our population over four months.

THE PURPOSE? In a word, voluntary "compliance" with illegal and unconstitutional "orders" from people with no such authority.

THE END GAME? Theft of the 2020 election from a very popular president who had done a fantastic job of Making America First Again... IN TWO WORDS... REGIME CHANGE!

Even though President Trump had delivered the best economic conditions America had seen in over 50 years, and he never shut down any part of the USA over the virus, the DNC controlled news media placed the blame for our totally trashed economy on Trump, who had nothing to do with the Pandemic or State's activities shut down by Governors and Mayors, most of them Democrats .

WHY? Because you could never steal the 2020 election from Trump without to two critical parts...

- Destroy Trump's successes
- Force the nation to "vote by mail" so that no one would ever be able to prove that millions of Trump votes went missing and millions of democrat votes were illegally cast and counted.

COVERT19 was and is "necessary" to the ongoing "regime change" underway since the moment Trump was elected in 2016. Most people readily accept mail-in voting, largely out of laziness and convenience sake, without considering the consequences. [BUT READ HERE – 28 MILLION MAIL-IN BALLOTS VANISHED AND WERE NEVER COUNTED SINCE 2012.](#)

If thousands can riot, loot and burn cities, millions can surely go cast their ballots in person, even if they have to wear a mask. But already, numerous states have announced that they are sending mail-in ballots out to every person in their state and greatly limiting the number and location of polling places available to voters in November. The LEFT is determined to stop you from voting in person!

NOTE: A key component of this PLANDEMIC is it stopped Trump from campaigning and holding rallies across the country the way he had been since his 2016 election. Today, the DNC sued to stop Trump from returning to the campaign trail beginning with his scheduled Oklahoma rally only days away. Right on schedule... TNALC leaders discussed this event weeks before it happened today.

REMEDY

This is a State-by-State problem that can be solved at the state level, either via well-prepared and funded legal action directly at the State Supreme Courts, or legislative action, where there is time and opportunity within your legislature. Otherwise, this can only be stopped by a nationwide Federal Order to open ALL polling places and businesses in every district and STOP any votes by mail that do not qualify under existing Absentee Ballot requirements. Time is ticking!

RIOTS AND OCCUPATIONS

There is nothing whatsoever organic about the rioting, looting and burning of Democrat run cities across America and they have nothing whatsoever to do with George Floyd, race or justice.

These events are extremely well organized, funded, orchestrated, and mobilized by the standard cast of characters listed and linked above, leftist “community organizing” at its very best. The same people who used COVID19 as a means to lock down the entire nation, condition people for what’s coming, bankrupt every city, state, American and the entire nation in short order, are directing the violence and occupation we are watching on TV across the country.

Once the people were easily controlled by COVID fear, they needed to increase and extend those fears through the election cycle, in order to force mail-in voting. These events were planned out over several years, just in case the global Marxist revolution in America was meeting with resistance and yep, Trump was leading that resistance. Therefore, Trump MUST be contained until he is removed from office.

The trick is to make “regime change” look legit - to make the highly unlikely outcome of the upcoming election, look like a reasonable outcome. Meanwhile, running cover by accusing Trump of doing exactly what they are doing, setting up to steal the election.

To up the ante and extend the “voluntary” lockdown through the election cycle, organized chaos in the streets was needed to create more fear in the average American, most of whom have already proven highly likely to “go along to get along.”

Every one of these “terrorist” events across America is happening only in Democrat controlled cities and states. In every case, democrat Governors and Mayors are not only standing down, they are preventing law enforcement from enforcing any laws while encouraging the riots and now, they move to “defund” (aka eliminate) all law enforcement. These cities and states are now under “mob rule” - not just by the

actors in the streets, but by the people running these organized op's and standing down against in democrat voting districts across the country.

Expect these events to continue and escalate between now and November. They have to force mail-in elections to steal this election. They cannot win in November any other way.

REMEDY

City police act on the orders of the Mayor and City Council. State police act on the orders of the Governor. Law Enforcement Departments are NOT standing down against this evil because they want to. They are being ordered to... To unleash law enforcement, direct confrontation and challenge to the authority and duty of Democrat Mayors and Governors is necessary.

We do not have a "federal police force." Yes, we have a Department of Justice and the Federal Marshals Service. But they are not designed or equipped to manage this circumstance. Trump already tried sending in the National Guard, but they too have stand down orders. They are not even allowed to return fire if fired upon.

If Trump attempts to use the US Military or any other branches thereof, it will trigger an immediate call to remove "the brutal dictator" from office under Amendment 25, or ignite a second impeachment attempt much more likely to succeed.

So, what is the realistic remedy?

"The people" in each state must take matters into their own hands, one way or another, peacefully first, if possible. They can again use the State Supreme Courts in this effort, or the State legislatures where democrats are not in control. No matter how it's done, it will again require sacrifices on the part of "the people," both financial and maybe much more.

But one way or another, "the people" must retake control of their cities and states. They cannot even attempt it while frightened or shamed into house arrest under COVID rules that no one in American has the Constitutional authority to issue, much less enforce.

MAIL-IN ELECTION

Prevent this at all cost... We've already covered a lot of this above, but here, understand the danger in this threat by simply knowing the [FACTS](#) about how many votes (28 million since 2012) went missing and were never counted.

Do NOT confuse standard "absentee balloting" with this new "mail-in election" effort. Absentee balloting has been around a long time. It has always been a terrible way to cast your vote, [proven by 28 million vanishing into thin air just since 2012](#). In short, there is NO WAY to secure any election via mail-in balloting. No way to prove your vote arrived or was counted properly - No way to verify all votes cast were "legal" votes by "legal" voters.

As a side matter, the DNC push led by Van Jones to get felons out of prison and return their voting rights is an additional effort to offset legitimate votes and even Trump has played into this somewhat, in his desire to be all things to all people. The DNC is also heavily involved in illegal "[ballot harvesting](#)" across

the country. This, along with illegal voters in sanctuary cities can very likely tip the election to Democrats in November. Additional attention is required to prevent this from happening.

REMEDY

States have the authority to set election rules within the state, even as it pertains to federal offices. However, that power does not include the power to “disenfranchise” legal voters by offsetting them with “illegal” votes or by stopping legal voters from casting their ballot in normal polling places with normal security measures in place.

Again, to stop this, you have to stop mail-in balloting within your own state and fast. In this regard, realize that the mail-in election is being justified (legalized) by way of the COVID19 lockdown. The claim is an effort to “keep everyone safe” when in fact, the goal is to keep everyone locked down so that there is no means to challenge the outcome of a “mail-in” election.

Again, the people are the only real solution and they have to act together in each state. Realize that the leftists do NOT have to force more than 5% of the nation to switch to mail-in balloting to steal this election. A 5% change to mail-in balloting can swing the election results by 10% or more.

Current polling data showing Joe Biden way ahead of Trump are all FALSE, including at Fox News. But they are not without purpose. The purpose of these daily reports is to convince Americans that Joe had the lead and was going to win all along, so that when the DNC steals the election in November, everyone has been pre-conditioned to that outcome. It’s called a “white op.”

NATIONAL POPULAR VOTE

Working in concert with parts 1, 2 and 3 above, the National Popular Vote movement to eliminate the protections of the Electoral College that saved Trump and our country in 2016, is a key part to this overt regime change op.

The National Popular Vote op exists to bypass the Electoral College (EC) protections by simply having States award their EC votes to the candidate that wins the “national” (not state) popular vote.

EXAMPLE: Let’s say a very RED state like Tennessee, which only has two BLUE Counties out of 97 counties, votes Trump by a 64-36 margin over Biden. But Biden, via a fraud-filled “mail-in” election wins the national popular vote, like Hillary Clinton did in 2016, by millions of fraudulent votes. Tennessee can decide under its State authority to simply award all Tennessee EC votes to Biden, even though Trump won the Tennessee popular vote by a 64-34 margin.

The States have the authority to make State election rules, including how the State will award it’s EC votes in a Presidential election.

REMEDY

This State level power does NOT include the power to “disenfranchise” 64% of the voters within their state, in favor of a national popular vote. This must be stopped in every state. The national movement does NOT have to have all the states signed up for this to affect the outcome of the 2020 election. If only a few states that have signed on to this compact, decide to award their EC votes on this basis, it will

be enough to swing the Electoral College – due to a stolen votes via mail-in balloting. By these two means, both Presidential electoral systems are easily stolen.

The people have to stop this by either State Supreme Court challenge if their state has signed onto that compact, or by legislative process, or by US Supreme Court challenge to the States authority to “disenfranchise” voters within the state by not adhering to the vote within the state. Once again, fighting this is also very difficult while on COVID19 lockdown, hence the purpose of extending the lockdowns by any means necessary.

COURTS v. ABSOLUTE RIGHTS

Unfortunately, the people have “assumed” that Governors, Mayors and Courts have authority that none of them are actually granted in either State or the Federal Constitution. People have made this very bad “assumption” for many years and today, we even watch Donald Trump talk about the power of unelected and unaccountable court judges to actually run the country - that only Trump was elected and given the Constitutional authority to run.

COVID19 “orders” from rogue Governors and Mayors have been challenged in numerous courts across the country over the past four months and the result has been pretty similar in every case. These rulings should scare the hell out of every American...

“YOUR RIGHTS ARE NOT ABSOLUTE!”

Everything, including all the above, is moot if our Rights are not absolute - not even Rights, but instead, mere privileges controlled by our rulers, most of whom are not elected or accountable to anyone, namely the courts.

When even President Trump is following orders from judges that have NO such authority whatsoever, freedom and liberty as we once knew it, are hanging off the cliff by a single fingernail.

Our Rights are either “absolute “or, they are not Rights at all.

Contrary to the belief system of even most modern day “constitutionalists,” American citizens do NOT have any “constitutional Rights.” In fact, the Constitution never mentions anything at all about the Rights of the people. That document, of, by and for the people, was not created to enumerate or even protect our Natural Rights as American Citizens. It was created by Citizens to establish and form a system of “self-governance” with very limited and specific power to carry out the “general” affairs of the people, on behalf of the people.

When the system we created no longer serves that purpose, but instead, has become “destructive of those ends,” it is the Right and Duty of “the people” to alter or abolish that system and re-establish the original foundations as defined by the Charters of Freedom.

Every single public office, elected, appointed, or otherwise hired, is 100% subject to “the will of the people.” If the people “have no Rights,” then the very government they formed, without the Right and Power to do so, is itself, without any authority at all.

ALL GOVERNMENTAL POWER IS DERIVED FROM THE PEOPLE. Rights are NOT derived from or regulated by the people's public "servants."

REMEDY

Only two courts in the entire country have the constitutional jurisdiction to even hear these arguments, your State Supreme Court as it pertains to abuses of power within your state, and the U.S. Supreme Court when the abuse is federal in nature, or happening at the hand of tyrannical activist judges on your State Supreme Court.

Our multi-level and jurisdictional system of Federal, State and Local government is designed to best serve the people in accordance with the oaths taken by every office holder at every level, on a bottom up, not top down, manner. Local issues should be solved locally, State issues within the state. But when your entire state is an issue, then it's time for an original jurisdiction case at the U.S. Supreme Court to force your state back into constitutional compliance, if it can be done peacefully.

OVERALL REMEDY

These five critical threats to our Republican form of government, along with others not addressed here, represent the very internal threat to the demise of the USA that Americans have feared since the formation of this country.

As we speak, America is no longer the "Land of the Free." It's no longer a "home of the Brave."

As of today, it's the land of "go along to get along" and home of foolhardy cowards who continue to allow their nation to be burned to the ground by the scorched earth mission of far-left radicals.

The people tearing down and destroying all of our nation's history subscribe to the teachings of Chairman Mao, Karl Marx, Frederick Engels, Che Guerra, Lenin and Stalin. They demonstrate NO fear, no remorse, no shame and no mercy.

As we approach July 4th 2020, I can't think of a better time for all Americans to wise up and rise up, reclaiming and enforcing all of the Rights endowed by our Creator and inalienable by any public office.

LATE ADDITION: As we prepare to release this document, numerous so-called Republicans from the Bush Administration, Congressional Never-Trumpers and fired former Trump cabinet members have unified and raised millions of dollars to ["take Trump out" in the 2020 elections](#). We are NOT just up against Democrats. We are fighting "global Marxists" of every political stripe, plus global powers working behind all of these operations designed and implemented for [REGIME CHANGE](#) in America.

MASSIVE NATIONWIDE CIVIL DISOBEDIANCE TO ALL OF THIS IS MANDATORY NOW, or our beloved country is gone! Not gone for a while, until the next election... GONE!

TNALC remains committed to doing everything we can to bring together and organize "the people" who still love this country and everything it has ever stood for. Democrats are the ONLY people in America who ever thought that all men were NOT created equal. Democrats are the ONLY people in America

who have fought for more than a hundred years now, to make sure that NO American life matters! They are the only people who think “We the People” have NO ABSOLUTE RIGHTS!

Because it has become nearly impossible to know who we can trust now, TNALC has specific action items available to TNALC members as supporters upon request. Specific action items will NOT be made public.

Please support and join in TNALC effort today! There is little time left for any viable solution to these problems or any other.
