

INFORMED CONSENT DEMAND FOR CRITICAL INFORMATION PERTAINING TO ANY MEDICAL MANDATE

TO WHOM IT MAY CONCERN, in your assumed official and individual capacity to issue medical mandates, be it to a patient, the citizens of the United States, any individual State, County or City, or the employees of any private entity, corporation or agency, student or contractor, **we hereby demand that you provide all available clinical evidence necessary to support your medical mandates or request my “informed consent” prior to attempting to force or coerce my compliance in an otherwise unlawful manner.**

[U.S. Law](#), which is based upon the [Nuremberg Code](#) on this matter, requires the “informed consent” of each and every patient, prior to administering any medical procedure, device, vaccine, or experimental technology under experimental *FDA Emergency Use Only* authorization. Before you can request or receive “informed consent” from anyone, it is necessary for all available clinical information and evidence to be made readily available to all prospective patients or recipients, in order for anyone to offer their consent on an “informed” basis.

Without all of the information demanded below, it is impossible for anyone to be in the position to offer, suggest or mandate, the use of any “emergency use only” or even fully FDA approved medical procedures, devices, or experiments, without the expressed “informed consent” of the prospective patient or recipient, who is not in a position to consent due to lack of critical information.

For the record, anyone who has already given their consent under duress, without access to the information demanded herein, cannot be construed as having given their “informed consent,” as until now such information has not been made available to them. Medical mandates previously enforced without proper fully “informed consent,” were administered in direct violation of the Nuremberg Code, all relevant U.S. Code, and all natural human Rights, at the liability of the person and organization mandating such medical procedures, especially anyone doing so without a medical license.

As a result, with the potential for related mandates pending, or already in existence, we hereby demand all available clinical evidence as demanded below, immediately and without hesitation.

1. Provide all available clinical evidence of the isolated COVID19 virus and each known variant and the methods by which these variants have been identified and isolated.
2. Provide all available clinical evidence that “masks” have been successful in preventing the spread of COVID19 and which masks have been the most effective at preventing the spread of COVID19, along with the means by which this evidence was confirmed, along with all available information provided by the mask manufacturers concerning the use of said masks for this purpose.
3. Provide all available clinical evidence that proves “social distancing” has been effective at stopping the spread of COVID19 and the sources of said clinical evidence.
4. Provide all available clinical evidence that COVID19 “vaccines” are in fact, true vaccines, and not experimental mRNA gene therapy.
5. Provide all available clinical evidence that COVID19 “vaccines” are effective at preventing COVID19 infection, the spread of COVID19, illness and death from COVID19 and which mRNA injections have proven to be most effective in all areas, along with all supporting clinical evidence.

6. Provide all available clinical evidence that COVID19 vaccines have proven to be safe for human use, backed by clinical data concerning related illness, adverse events, and deaths, which have followed the use of the vaccines, and which vaccines have been the least safe, according to all available clinical evidence, including all related mammalian trials.
7. Provide a detailed list of all ingredients in each and every “vaccine” or “therapeutic” currently in use, broken out by each vaccine manufacturer and each vaccine dose and batch, as produced by each manufacturer, used in the USA and the world.
8. Provide all available clinical evidence of known adverse events associated with each vaccine currently in use, separated by manufacturer, dose, and batch, taking into account all available adverse event reporting systems, both within the USA and all foreign clinical COVID event tracking and reporting systems.
9. Provide all available evidence as it pertains to all current COVID19 vaccines in use in the USA today, that each is in fact fully FDA Approved for broad public use, and not just FDA authorized for emergency use only.
10. Provide all available clinical evidence that any “emergency” exists to justify “emergency use only” FDA status.
11. Provide all available clinical information, documentation and evidence pertaining to any and all known short-term and long-term effects of each COVID19 “vaccine,” including all known side effects from any mRNA experimental injections for COVID-19, including all available human and animal trials.

Further, we hereby demand that you cease and desist any current mandates, orders, coercive, forceful, or punitive measures taken by you to administer any related medical procedures, until such time that you have provided all necessary clinical evidence demanded in all eleven items listed above, necessary to acquiring the “informed consent” of any patient.

Until the demanded information is made available, no one is in the position to offer their “informed consent” to any related procedures of treatments regarding COVID19, or any alleged variant of COVID19 (SARS2)
